

Leading the industry
in Supply Chain
Management

STREAMLINE THE ENTIRE SUPPLY CHAIN

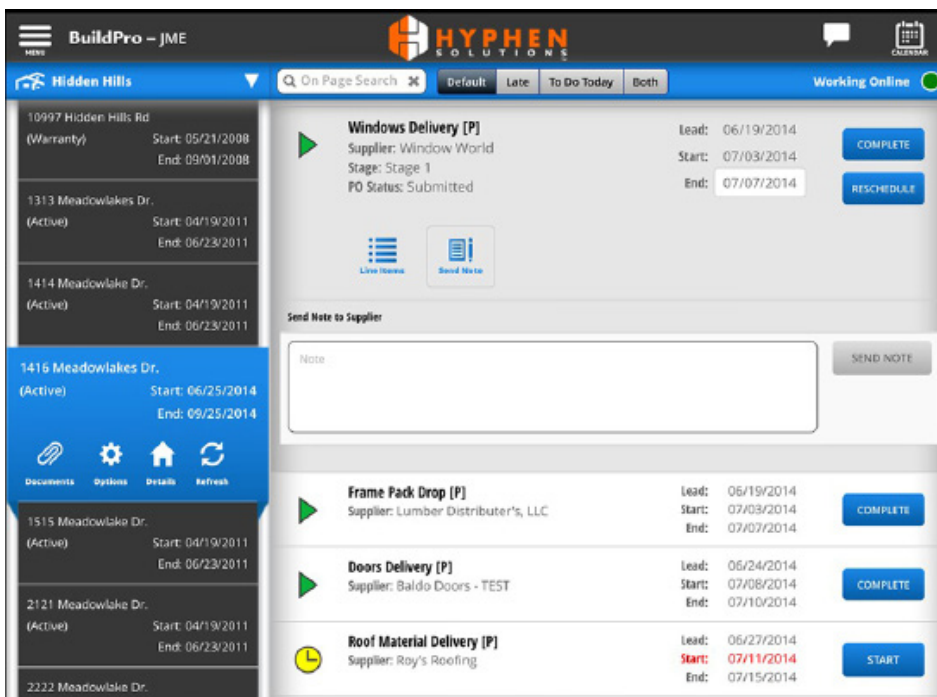

Fully Integrated Home Building Solution

SCHEDULING – PROCUREMENT – COLLABORATION

Hyphen Solutions' supply chain management platform has transformed the construction industry by automating all connections and interdependencies of a project, thus perfecting every order with a single source of truth.

Single Source of Truth

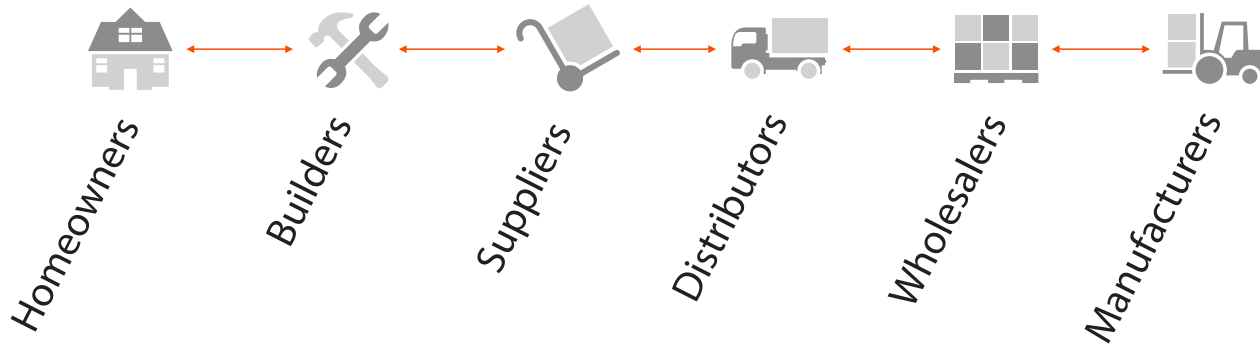

Collaboration occurs in real-time. BuildPro provides two-way communication between the back office, field personnel and trades resulting in unified data from start to finish. Accurate and consistent information flows throughout the supply chain saving time in planning and sets Builders up for success.

- Improve Communication
- Increase Productivity
- Reduce Cost & Errors
- Better Insight
- Maximize Supply Chain Efficiency
- Manage Workflows

BuildPro is designed to reduce the cycle time of projects and allows for manageable and measurable communication with trades and partners.

The ultimate network from Homeowners to Manufacturers and everything in between

Construction Benefits

- Mobility – manage projects from **anywhere**
- **Real-time** communication with trades
- Over **45k** users on the Hyphen Network
- **150,000** Homes Built this year

Purchasing Benefits

- Full **control** over EPO/VPO process
- Automated, electronic distribution of PO's
- Over **20 Million** PO's processed on Hyphen
- More than **\$22 Billion** in Supply Chain this year

Real-Time Communication

Hyphen delivers instant communications via interruptive, actionable changes to the entire supply chain ecosystem which encourages multi-directional collaboration to maintain control, accuracy and efficiency throughout the project.

Dynamic Supply Chain

Hyphen delivers a dynamic and automated supply chain approach that gives everyone in the ecosystem a single integration into an entire construction management network. This eliminates waste, accelerates cash flow and increases visibility and collaboration with a broader community of partners, suppliers and customers.

Business Insights

Hyphen embeds its construction management best practices along with your unique value proposition to create data-rich transaction analytics. With complete visibility into order, schedule and vendor history, ecosystem participants are provided the opportunity to make better business decisions.
